

HENNIG
OLSEN

Product catalogue 2020

HENNIG-OLSEN + *Freia* = YES!

NUDE = 80 % FRUIT ICE LOLLY

100 % RECYCLABLE PACKAGING

Sven Hennig-Olsen learned to make ice cream in Chicago. He took his knowledge, equipment and recipes back home with him to Kristiansand.

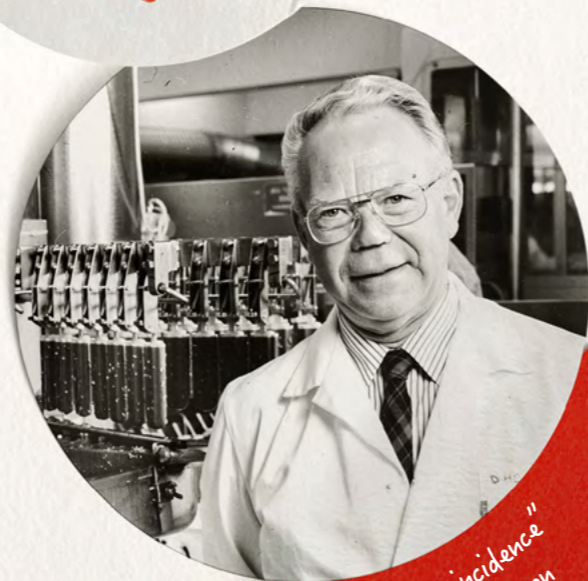

Creativity since 1924

A thirst for adventure, family traditions and ambition. This how the Hennig-Olsen Ice Cream adventure came about...

In 1921, a young, ambitious Sven Hennig-Olsen travelled to Chicago. This was to become the start of an ice cream adventure. Here, Sven learned to make ice cream the American way, with rich ingredients of cream, egg yolks, fruit and berries. Three years later, he returned to Kristiansand and opened a chocolate and ice cream kiosk in the city centre, and began ice cream production in a back room.

In the 1960s, his son Otto Hennig-Olsen took over the helm and built a modern factory at Hannevika, just outside Kristiansand. Production grew quickly; however, the core of the recipes was retained by Otto: The delicious ingredients of cream and egg yolks created the flavour we know today as "Crème de la crème".

In 1960 Otto Hennig-Olsen took the leap from ice cream production in his basement to a dedicated factory at Hannevika!

"Quality is no coincidence" - Otto Hennig-Olsen

Tradition and innovation

Around a hundred years later, Hennig-Olsen has become a global, yet tiny village in Hannevika and has expanded to as many as 250 employees from 25 countries, led by Paal Hennig-Olsen, Sven's grandson. Hennig-Olsen ice cream has become Norway's largest ice cream manufacturer!

New production technology, continuous innovation and development of new types of ice cream confirm that Hennig-Olsen

- The value of first-class raw materials
- Excellent artisan skills
- Creativity and go-ahead spirit

DID YOU KNOW THAT...
...in 2019 Hennig-Olsen created the world's first ice cream containing 0 calories? ZERoh! is made in collaboration with the fruit squash manufacturer Lerum and is totally calorie and sugar-free. Read more on page 11...

"Life is too short for mediocre ice cream" CEO Paal Hennig-Olsen

People and diversity

For more than 50 years we have worked actively to create a diverse Norwegian workplace, because we are confident that diversity helps to strengthen the culture within our company. As a cornerstone company in Sørlandet, the ice cream factory at Hannevika is a workplace for over 250 persons representing over 25 nationalities.

*Psst!
We get our delicious cream from Norwegian cows and our eggs from free-range Norwegian hens!*

We use Norwegian raw materials

Norwegian raw materials are first-class, and make all the difference when creating the flavour you know as *The Cream of Ice Cream*. Rich cream comes from Norwegian cows and eggs from free-range Norwegian hens. Fact: Hennig-Olsen Ice Cream is in fact Norway's fourth largest chocolate factory! We make over twelve different chocolate sauces ourselves, that we use in our ice cream. Naturally, our strawberry jam is also home-made. We make our own crushed nougat – and we still crush it by hand.

More sustainable ice cream

UN sustainability goals are the world's joint action plan towards 2030. We wish to reduce our footprint and we are working on several sustainable initiatives, in line with, in particular, three of the UN's sustainability goals:

Resources, used and re-used

In 2019 we built one of Norway's largest filtration plants at our ice cream factory. This is one of our major initiatives towards a more sustainable ice cream production. Process water from manufacturing is cleaned so thoroughly that it can be re-used in the production process – again and again. The sludge filtered out can be made into fertiliser, to help grow, for example, delicious strawberries for our jam. A circular economy in practice!

100 % recyclable packaging

Hennig-Olsen Ice Cream has taken the 'Plastic Pledge', and is taking steps to introduce more sustainable packaging and to reduce the use of plastic. Among other measures, we have removed 12 tonnes of shrink wrapping from single unit ice creams and 50 tonnes of plastic after introducing the new Sørlands Ice Cream tubs in 2019. In 2020, all single unit ice cream packaging from Hennig-Olsen will be 100% recyclable. This year's retail information materials will be printed using more environmentally-friendly colours and on recycled plastic or environmentally-friendly paper.

Remember to sort your ice cream packaging!

The best from
two worlds!

31 years with Freia

Some things just get better with time... for 31 years we have created Norwegian ice cream favourites with delicious chocolate flavours such as Daim, Oreo, NonStop and Japp.

We are now launching a completely new range of ice creams that are set to take Norwegians by storm. The best of two worlds in the same tub – and as a lolly. Read more on the next page...

News!

Freia Milk Chocolate Ice Cream

For the first time, Hennig-Olsen Ice Cream is now launching Freia Milk Chocolate as an ice cream. We have taken the best from two worlds to create a chocolate ice cream that will no doubt get happy Norwegian hearts beating just a little bit faster!

The new product is a delicious chocolate ice cream lolly made from Freia Milk Chocolate. On sale from week 8 in both single units and as a multipack with 6 pcs per box.

The best from two worlds!

Ice cream and chocolate lovers both agree: This is the news of the year! The new dessert ice cream series combines Hennig-Olsen's creamy ice cream with five fantastic chocolate favourites: Daim, Japp, Freia Milk Chocolate, NonStop and Oreo.

To enjoy the delicious ice cream, you must first break through the top layer, made from either Freia milk chocolate, NonStop or Oreo biscuit. Underneath you will discover a delicious ice cream filled with goodness!

- The best from two worlds – in one tub!
- Launching in week 8 with a broad media campaign.

Crème-series expanding further

Crème is Hennig-Olsen's premium ice cream lolly that takes enjoyment to the next level. We are now launching two new members of the Crème family, both with big personalities and broad appeal: Crème Almond Vegan and Crème White Chocolate.

Crème Almond Vegan is a vegan version of the best-seller Crème Almond. The ice cream is a vegan vanilla ice cream made from rice milk, dipped in vegan chocolate sauce and almonds. Perfect for those who are lactose and gluten intolerant, in addition to vegans.

Crème White Chocolate is a rich creamy ice cream with real vanilla and our own chocolate sauce, covered with white chocolate and delicious cookie chips. A new and exciting variant for all ice cream lovers!

Psst! Last year, we hid five golden tickets in our new Crème products, and not all of them were found. One of your customers could win a trip worth NOK 25,000!

NUDE 80 % fruit ice lolly!

Fruit ice lollies now mean what they say! The new product NUDE is a 100% natural fruit ice lolly, made with just a few ingredients and 80% fruit.

NUDE Strawberry and NUDE Mango are a next-generation fruit ice lolly that offer both a healthy alternative and flavour. A huge amount of fruit and only natural ingredients give a unique, delicious feeling of eating 'fruit on a lolly'. The fruit ice lolly can even be enjoyed as an in-between meal treat.

NUDE Strawberry is being launched as a single unit and as NUDE Mango in a 6-pack.

*Did you know that...
... both NUDE ice lollies
contain fewer than 100 kcal per lolly?*

Here comes Mochi!

New Mochi from Hennig-Olsen Ice Cream is being launched as a 6-pack with three different flavours; strawberry, caramel and mango. Strawberry and caramel are creamy ice creams and mango is a sorbet. The colourful product is a rice-based, thin dough better known as Mochi-dough, or simply Mochi.

A little taste of Japan in Sørlandet!

New taste coming in May: ZERoh! Apple & Kiwi

We are taking our ZERoh! success a step further and launching ZERoh! in two new flavour variants: apple and kiwi. Naturally, without sugar or calories. ZERoh! Apple Kiwi will be on sale in May.

*Did you know that...
... ZERoh! ice pop was crowned Innovation of the Year 2019
by the Grocery Suppliers Association of Norway?*

*Psst!
This year we are launching
five new scoop
ice cream flavours*

*40% fewer calories than ordinary
chocolate scoop ice cream!*

Nyt

Japp

Coconut

Bubblegum

Passion Fruit

*Psst!
This year we are introducing
ecological soft ice cream for all customers.*

*Did you know that...
.... we have redesigned our
spoon dispensers – we now
offer wooden instead of
plastic spoons!*

New: Mochi ice cream buns

Enjoy an ice cream bun you can hold in your hand!
Mochi is ice cream packed into a rice-based, colourful
dough, better known as Mochi dough. A new and exciting
way to serve ice cream!

Mochi is being launched in three types: 20 pack with two flavours in each box:

- Mochi 10 pcs, Chocolate ice cream & 10 pcs Mango sorbet
- Mochi 10 pcs, Caramel ice cream & 10 pcs Strawberry ice cream
- Mochi 10 pcs, Coconut ice cream & 10 pcs Sakura cherry blossom ice cream

Five fantastic new scoop ice creams

Nyt Chocolate is a low-calorie scoop ice cream with 45% fewer calories than a Premium chocolate scoop ice cream.

Japp Premium ice cream is a super tasty chocolate ice cream with lots of caramel sauce and Japp chips.

Vegan Coconut Scoop ice cream is made with natural fresh coconut milk and our own chocolate sauce.

Passion Fruit Premium ice cream is a delicious combination of sharp passion fruit taste and creamy Hennig-Olsen ice cream.

Bubblegum scoop ice cream is a colourful ice cream that is sure to become a favourite among younger ice cream fans.

**Allergen**

The declaration on the product packaging is applicable at any time. The allergen list applies to the product in unopened packaging. At hennig-olsen.no you can use the filter menu to obtain further information about the types of allergens in each individual product.

At an ice cream counter, the product may be crosscontaminated, e.g. by using the same ice cream scoop in more than one product.
